SUPERINTENDENT DR. JEFF THOMPSON

SUPERINTENDENT'S MESSAGE: RECLAIMING INSTRUCTIONAL TIME

DEAR PEACE RIVER SCHOOL DIVISION PARENTS AND GUARDIANS,

TODAY I WANT TO SHARE WITH YOU AN IMPORTANT UPDATE REGARDING ADJUSTMENTS TO THE INSTRUCTIONAL CALENDAR AND ASSESSMENT SCHEDULE FOR THE REMAINDER OF SEMESTER ONE. THESE CHANGES ARE PART OF OUR STRATEGIC RESPONSE TO THE LOSS OF INSTRUCTIONAL TIME RESULTING FROM THE RECENT 3.5-WEEK LEGAL LABOUR ACTION BY THE ALBERTA TEACHERS' ASSOCIATION (ATA).

ALBERTA EDUCATION AND CHILDCARE PERSONNEL HAVE REQUESTED THAT ALL SCHOOL DIVISIONS IMPLEMENT MEASURES TO RECLAIM AS MUCH INSTRUCTIONAL TIME AS POSSIBLE FOR SEMESTER ONE, WHICH RUNS FROM NOW UNTIL JANUARY 29, 2026. IT IS A CRITICAL UNDERTAKING TO ENSURE ALL CORE CURRICULAR OUTCOMES ARE COVERED IN A MANNER THAT MAXIMIZES SUCCESS FOR OUR STUDENTS.

OUR DIVISION'S ADMINISTRATION HAS DEVELOPED A PLAN THAT FOCUSES ON THREE KEY AVENUES TO ACHIEVE THIS INSTRUCTIONAL TIME RECOVERY:

1. Converting the November 10 PD Day to an Instructional Day

Similar to the proactive steps taken by many other school jurisdictions, we have determined that changing a scheduled professional development day into a regular instructional day is an effective approach to salvage teaching time. This plan was brought before the Board of Trustees at their November 3rd meeting for discussion and ultimate decisioning, as per the Board's established process for approving the school year calendar.

After the discussion, the decision was made to convert Monday, November 10, 2025, into a regular Instructional Day. We strongly encourage parents to ensure their children attend school on this day to take full advantage of this additional instructional time.

2. Changes to the End-of-January Examination Process (Grades 7-12)

To ensure our focus remains squarely on instruction and the coverage of core curriculum outcomes to the very end of the semester, we are cancelling the normal end-of-January Formal Examination Schedule for Grades 7-12 students. This approach ensures instruction continues uninterrupted until the semester's conclusion, as opposed to the normal arrangement of suspending regular instruction to accommodate a mid-January two-week formal examination block where two or more consecutive slots of instructional time are used for writing cumulative school-based final exams and diploma exams. Significant instructional time will be salvaged by maintaining the focus on coverage of core curricular outcomes to the end of January.

3. Report Card Periods

We have decided to cancel the Grades K-6 November report cards and to shift the March report cards back to February. This decision was made to allow our teachers the time to remain laser focused on instructing their students for the remainder of this term. Teachers are still expected to schedule individual "Fall Meetings" with parents of students who may be struggling or who have IPPs and for whom there are concerns. Such individualized meetings may occur between mid-November to early December or into January. Some adjustments are also being made to the Grades 7-12 reporting process, and schools will be communicating this information to parents in the days ahead.

We believe the above noted strategic adjustments provide additional instructional time that will allow our teachers to better serve our learners by ensuring more substantial coverage of core curricular outcomes in all core subjects than would have been possible without the noted adjustments.

In addition to the above noted PRSD adjustments, Alberta Education and Childcare has announced that the January 2026 Diploma Examinations and Grade 9 Provincial Achievement Tests (PATs) have been cancelled. For our Grade 12 students, this means that they are automatically exempted from these January assessments. Students may choose to write these exams in April or June, 2026; however, for those who choose not to write at a later date, their final school-awarded mark will be their final official course grade. For the many students who will likely choose this option, a notation will be added to their transcripts confirming that no diploma exam was written. This ensures no negative impact on students' ability to graduate or to transition into post-secondary programs as per their normal plans.

Thank you for your understanding as we navigate this period of recovery and transition. Please direct any specific questions regarding your child's schedule to their teachers or to your school principal. We continue to be committed to working with our students and their families to ensure the best possible outcomes to maximize success for all!

Sincerely,

Jeff Thompson, PhD
Superintendent of Schools

DEC 16TH

"Up at the North Pole there was Santa, you see, having fun in the Arctic, no worries, please."

"This North Pole adventure began, we confess, with a problem Santa just had to address."

Santa was in a desperate situation, his Spanish was lacking; he needed tutoring. When he decides to hire a teacher, the elves suggest going to a small native town, which is the best way to get a language down. So, Santa Claus, Mrs. Claus, and the elves all fly down to Mexico, where their teacher, Senorita Bonita helps them in their situation.

When a blizzard strikes, the North Pole clan is stuck in Mexico. Fortunately, the Mexican villagers all pitch in to help make the toys. All they needed now was a sleigh - wait! Was that just jingle bells? Could it be... Rudolph?

We held our annual WITS assembly in October to reaffirm our commitment to inclusive and bully-free schools. Thank you to all who were able to join from St. Thomas More School, and Worsley Central School in person, and Menno Simons Community School who joined virtually. It is a special moment when we can all come together for a common goal.

THANK YOU to our distinguished members of the RCMP Const. Lehman, and Const. Popic. As well a Ethan, Zach, Marcus, and Brayden from the Fairview Flyers. Also, many thanks to Mrs. Rushton for organizing the assembly and bringing everyone together.

Important Information on Our New Student Bus Attendance Card Program

We understand that the launch of any new program can raise questions and concerns, and we appreciate the feedback we have received regarding the Student Bus Attendance Card system. We want to take this opportunity to address the four primary concerns—concerns about privacy and tracking, the expense related to the new system, the perception that an attendance system is not needed in a rural environment, and the risk of students regularly losing the cards—by providing more context on

why this program was purchased and implemented.

Concern 1: "This feels like a surveillance system and I am concerned about the security of my child’s personal information."

TheReality: The card system is an operational safety tool, not a method of personal surveillance.

We want to be unequivocally clear about the nature and limitations of this system, especially for those concerned about data privacy:

Bus Driver Testimonial: *“I can actually do my job instead of taking attendance. 90% of my pickups and drop offs were staring at my tablet or paper doing attendance instead of watching for cars, keeping an eye on the kids’ locations outside the bus, and watching for hazards. I can do that now! I can focus on the safety of the kids, and attendance is still done for its own safety aspect.”* - Bridgette Hopkins, Peace River area Bus Driver

Concern 3: "The new system is not needed in our rural communities."

The Reality: Enhanced safety protocols are critical for all students, regardless of location.

- While we pride ourselves on our tight-knit rural communities, enhanced safety measures are necessary to ensure the well-being of every student, especially those riding the bus:
- Immediate Confirmation of Student Location: The Bus Attendance Card provides our department with a significantly greater level of detail on when and where a student got on or off the bus.
 - Example 1: The Missing Student: We recently had a concerned parent call because their child had not arrived at school. Using our attendance program, we were able to quickly confirm the student did not get on the bus that morning, providing the parent and the RCMP with crucial information about the student’s last known whereabouts.
 - Example 2: Missed/Wrong Stop: Sometimes, students get off at the wrong stop because they have made plans with friends that were not communicated to their parents or guardians. Without the attendance cards, we have to rely on the driver’s memory and make multiple phone calls to locate these students. With the new cards, we can immediately confirm the exact stop where the student disembarked as well as the exact time, drastically reducing our response time, which is critical in helping to ensure student safety.
 - Swift Response to Sleeping Students: If a young student falls asleep on the bus and misses their stop, the current procedure requires the Transportation Department to radio every bus that left the school and have them safely pull over to search for the student. With the cards, we can immediately identify the specific bus the student scanned on to, radio that driver directly, and get the student home more swiftly.

- Limited Personal Data on the Card: The card itself contains only the student’s name and a unique identification number tied to their bus registration information.
- The Card is Useless Outside the Bus System: The card has no functionality, tracking ability, or value outside of the specific card-reading equipment installed on PRSD buses.
- The Sole Purpose is Safety and Efficiency: The card system simply confirms which bus the student boarded and when and where they successfully got on or off. This removes the administrative burden from our drivers, allowing them to remain focused solely on the road and the students. The data is used exclusively for fast, accurate response in emergency or safety situations.

Bus Driver Testimonial:*“It frees my attention at the time when the students enter and exit the bus. Which means I can have my eyes on the road and pay more attention to the students.”* - Lilli Lundgard, Peace River area Bus Driver.

Concern 2: "The new system appears to be a waste of public funds."

TheReality: The new system is a strategic, cost-effective upgrade that increases efficiency.

- The decision to adopt the BusPlanner GPS and Attendance system was primarily driven by the need for a sustainable and more specialized solution for our transportation needs:
- Avoiding Exponential Cost Increases: Our previous GPS provider, Titan, was sold to a US-based company. We were informed that renewing our contract would lead to an exponential increase in cost. By adding the GPS system to our existing BusPlanner account, we secured a less costly system that is designed for school transportation. Our previous provider was designed for the oil and gas and trucking industries and adapted for K-12 Transportation use.
 - Administrative Efficiencies: BusPlanner integrates our routing and GPS requirements into one system, automating tasks, freeing up our Transportation team’s time, and increasing overall effectiveness.

Enhanced Parent Communication: The new software includes the Chipmunk parent app. This App equips parents with enhanced tracking and communication about their child’s bus journey. Setting up the app is a secure and simple process. First, download the Chipmunk app (available on Android and iOS). You will then either create an account, or log in using your existing BusPlanner login information. You can then connect to your student(s) account by entering the Quick Code “PRSD.” More information about Chipmunk is available on our website [HERE](#).

Bus Driver Testimonial: *“The tracking is necessary in the event of an emergency that is something that has to be considered I would not want to be the parent that gets the call about a child that’s missing that’s already been dropped off.”* - Stacy Johnson, Bus Driver

Concern 4: "Children will lose their cards."

TheReality: The benefits outweigh the risk, and staff feedback confirms simplified procedures.

We recognize that there is a risk of students occasionally misplacing a card, but the safety and administrative benefits are substantial. Furthermore, the system is designed to simplify the bus experience for both students and drivers:

- Simpler for Drivers: One of our long-time drivers, who was initially apprehensive about new technology, now expresses sincere gratitude for the system, stating it has simplified the pick-up and drop-off process and allows him to remain focused on driving. Another experienced driver loves the program and wishes we had implemented it five years ago.
- Simplified Drop-Off: The system helps the driver manage the flow of students getting on and off, reducing the chance of an accidental attendance error.

Bus Driver Testimonial:*Most of the responses have been positive especially from the elementary students.”* - Shawna Walmsley, Fairview area Bus Driver.

The Student Bus Attendance Card program is not just a tool for counting students; it is a vital safety mechanism and an investment in administrative excellence focused on enhancing student safety. We believe that by working together, we can ensure the successful implementation of this system, leading to a safer and more efficient experience for all of our students.

Chipmunk: A Bus Tracking App for Parents

Today, we are excited to announce the launch of the Chipmunk School Bus Tracker App for parents.

To provide parents with additional peace of mind regarding their child's safety while riding the school bus, the new bus card system is paired with a dedicated parent app called Chipmunk, which provides real-time information and enhanced communication regarding your child's bus ride to and from school. Please read through the included FAQs regarding Chipmunk and setting up your parent account.

This information is also available on the PRSD website here:

<https://www.prsd.ab.ca/our->

[division/transportation/attendance](#)

FAQs

Do I have to download the Chipmunk app?

No. The use of the Chipmunk app is completely voluntary. You can still find information about all bus cancelations and delays on the PRSD BusPlanner website: [prsd.mybusplanner.ca](https://www.prsd.ab.ca/our-division/transportation/attendance)

What is the purpose of the BusPlanner Chipmunk app?

The primary purpose of the app is to give parents real-time visibility into their child's bus location and estimated arrival times, enhancing convenience and reducing uncertainty.

What key safety and communication features does the app offer?

The app is designed to keep you informed and connected:

- Live Bus Location: You can view the bus's location on a live map while it is on its route.
- Accurate ETAs: The app uses GPS to provide estimated arrival times (ETAs) for all your children in one easy-to-read summary screen.
- Late Bus Alerts: Receive instant, color-coded notifications right to your phone if the bus is running behind schedule.

How does the app work with the student bus card?

The app displays the address and time your child scans on and off the bus. This confirmation provides peace of mind that your child boarded and exited the bus at the correct stop.

How do I set up the BusPlanner Chipmunk app?

Setting up the app is a secure and simple process. First, download the app (available on Android and iOS). You can then connect to your student(s) account by entering the Quick Code "PRSD."

After the app has authenticated the Quick Code, you will be asked to sign in. You will then either create an account, or login using your existing BusPlanner login information.

Please note: Only email addresses registered through the PRSD's Transportation department will be able to access information in the Chipmunk app. If you are having trouble logging in, please make sure you are using the same email address you provided to Transportation on your bus registration form.

Is my child's privacy protected in the app?

Yes, privacy is a priority. The app works securely with our routing database and GPS data to calculate ETAs. The system itself does not store personal data on the bus card. The Chipmunk app only displays the bus location while it is on a route and the secure scan events for safety purposes.

Additionally, the app is not a continuous live feed of the bus route, rather it is set to update every 60 seconds and only displays route information specific to the individual user. This means users cannot access any information about other riders on their student's bus route, and accounts are limited to email addresses registered with the PRSD Transportation department.

Who should I contact if I have concerns?

BLDDY *benches*

A buddy bench is a non-verbal signal that a student may feel sad, alone, excluded or may just need a friend to play with. This idea encourages empathy and fosters a healthy peer community at EEO
