CHRISTMAS LUNCH AND CONCERT PHOTOS

STUDENTS OF THE MONTH

COMMUNITY INFO

PRINCIPAL'S MESSAGE

Dear Families,

As the days grow longer and we march toward Spring Break, I am struck by the incredible energy pulsating through our hallways. Our school community has been a whirlwind of activity, blending festive celebrations with meaningful learning and a strong spirit of giving.

The magic of the season was truly captured during our Christmas Concert. It was a joy to see our students showcase their talents and hard work on stage—thank you to everyone who joined us for those memorable performances. We also enjoyed a wonderful Christmas Lunch, that brought us all together for a moment of gratitude and good food.

In January, we transitioned from festive fun to the joy of reading with our Family Literacy Night. Seeing our ancillary filled with families exploring literacy games together was a powerful reminder of how much we can achieve when we support our young readers as a team.

Our Grade 5 and 6 students recently took to the slopes for their annual Ski Trip. It was a fantastic day of building resilience, mastering new skills, and enjoying the great outdoors.

On Pink Shirt Day, our school was a sea of solidarity. I am especially proud to share that this year's official school pink shirt was designed by one of our very own Grade 5 students! Seeing their artwork worn by peers and staff alike served as a beautiful reminder that our students have the power to lead the charge for kindness and inclusion.

Slam Jam practices are now officially underway! The sessions are going exceptionally well, thanks in large part to the mentorship of the Fairview High students who have been coming over to assist. It's wonderful to see this cross-school collaboration in action.

Finally, we are currently collecting cans for the Food Bank. Our goal is to gather as much as possible to deliver just before Spring Break—perfectly timed to support local families for the Easter season. If you are able, please consider sending a non-perishable item with your child. Thank you for your continued support in making our school such a vibrant place to grow.

Warmly,

Jessica Whelan

Student Safety Reminder for Families

To help keep all of our students safe during arrival and dismissal times, we kindly ask families to **use only the designated drop-off and pick-up areas**. These locations are clearly marked and help ensure smooth traffic flow and student supervision.

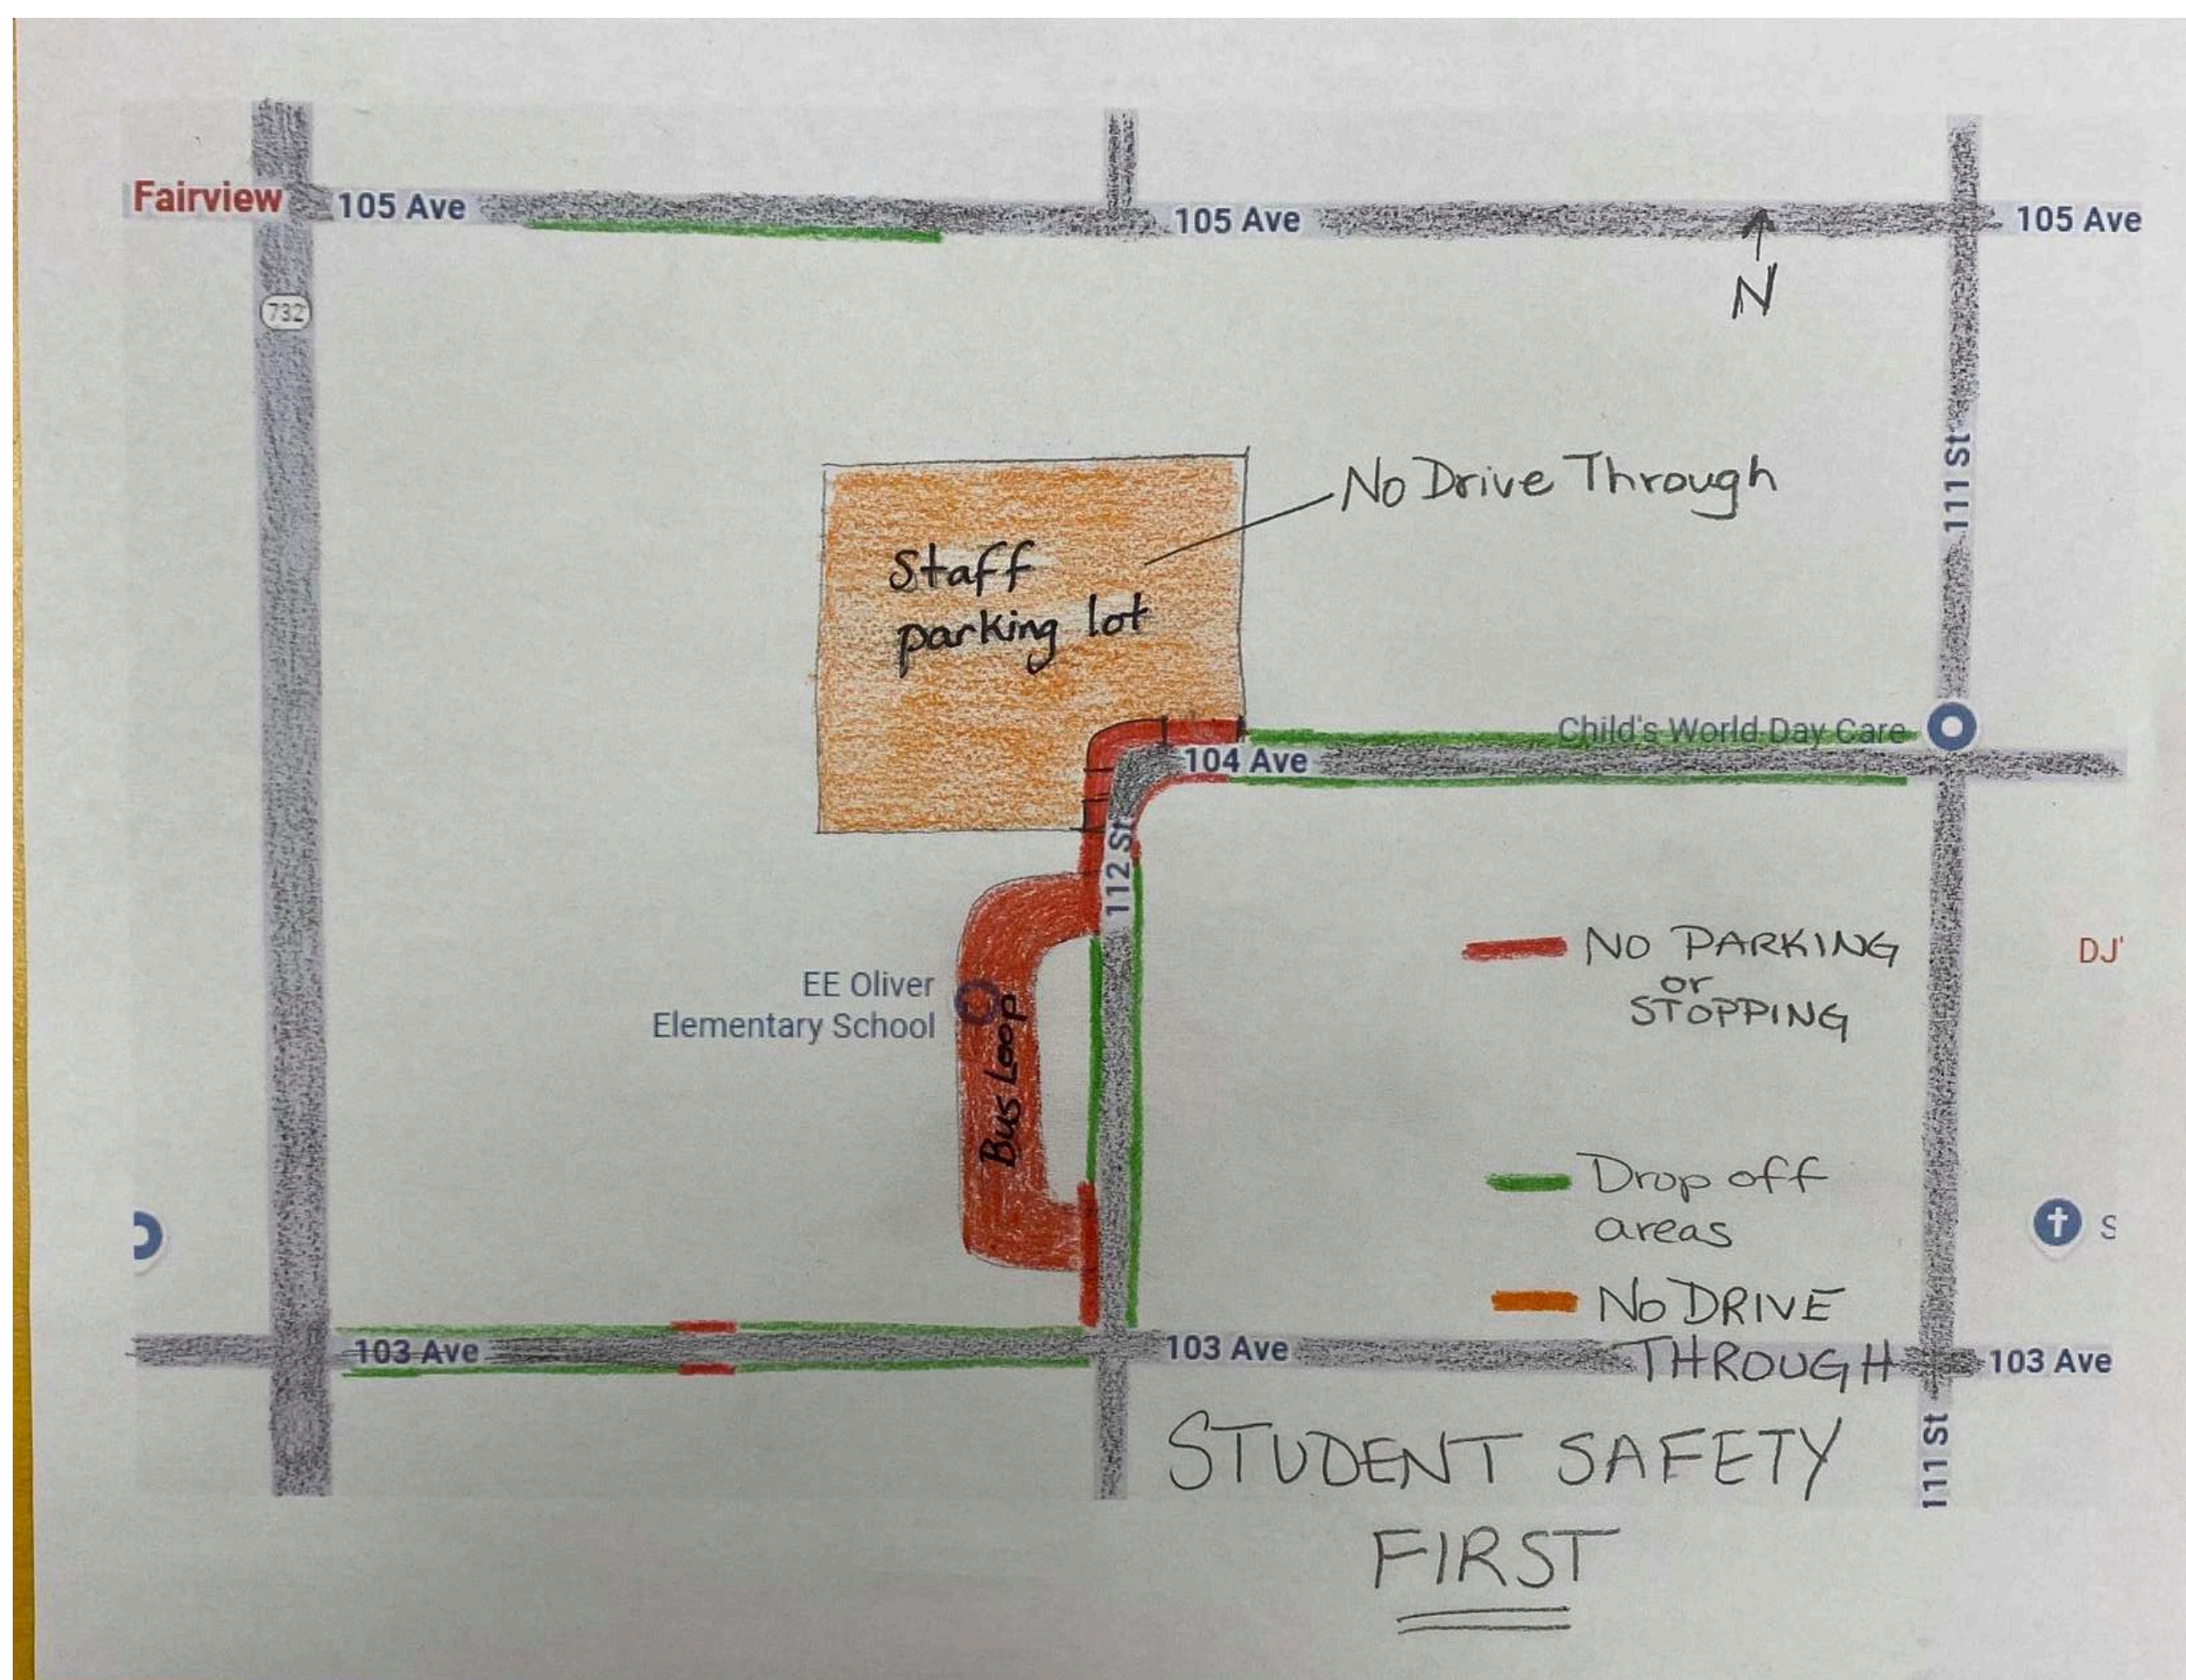

We understand that the weather is cold, and we appreciate your patience. However, **for the safety of all students**, it is essential that children are dropped off and picked up **only in the designated areas**, even on cold days.

Please note:

The **school parking lot is not a drop-off or drive-through zone**. Vehicles should not stop or pass through this area for student drop-off or pick-up.

These procedures are in place to protect students, families, and staff during our busiest times of the day.

Thank you for your understanding and for helping us keep our school community safe.

Important Information on Our New Student Bus Attendance Card Program

We understand that the launch of any new program can raise questions and concerns, and we appreciate the feedback we have received regarding the Student Bus Attendance Card system. We want to take this opportunity to address the four primary concerns—concerns about privacy and tracking, the expense related to the new system, the perception that an attendance system is not needed in a rural environment, and the risk of students regularly losing the cards—by providing more context on

why this program was purchased and implemented.

Concern 1: "This feels like a surveillance system and I am concerned about the security of my child’s personal information.”

The Reality: The card system is an operational safety tool, not a method of personal surveillance.

We want to be unequivocally clear about the nature and limitations of this system, especially for those concerned about data privacy:

Bus Driver Testimonial: *“I can actually do my job instead of taking attendance. 90% of my pickups and drop offs were staring at my tablet or paper doing attendance instead of watching for cars, keeping an eye on the kids’ locations outside the bus, and watching for hazards. I can do that now! I can focus on the safety of the kids, and attendance is still done for its own safety aspect.”* - Bridgette Hopkins, Peace River area Bus Driver

Concern 3: "The new system is not needed in our rural communities."

The Reality: Enhanced safety protocols are critical for all students, regardless of location.

While we pride ourselves on our tight-knit rural communities, enhanced safety measures are necessary to ensure the well-being of every student, especially those riding the bus:

- Immediate Confirmation of Student Location: The Bus Attendance Card provides our department with a significantly greater level of detail on when and where a student got on or off the bus.
 - Example 1: The Missing Student: We recently had a concerned parent call because their child had not arrived at school. Using our attendance program, we were able to quickly confirm the student did not get on the bus that morning, providing the parent and the RCMP with crucial information about the student’s last known whereabouts.
 - Example 2: Missed/Wrong Stop: Sometimes, students get off at the wrong stop because they have made plans with friends that were not communicated to their parents or guardians. Without the attendance cards, we have to rely on the driver’s memory and make multiple phone calls to locate these students. With the new cards, we can immediately confirm the exact stop where the student disembarked as well as the exact time, drastically reducing our response time, which is critical in helping to ensure student safety.
 - Swift Response to Sleeping Students: If a young student falls asleep on the bus and misses their stop, the current procedure requires the Transportation Department to radio every bus that left the school and have them safely pull over to search for the student. With the cards, we can immediately identify the specific bus the student scanned on to, radio that driver directly, and get the student home more swiftly.

- Limited Personal Data on the Card: The card itself contains only the student’s name and a unique identification number tied to their bus registration information.
- The Card is Useless Outside the Bus System: The card has no functionality, tracking ability, or value outside of the specific card-reading equipment installed on PRSD buses.
- The Sole Purpose is Safety and Efficiency: The card system simply confirms which bus the student boarded and when and where they successfully got on or off. This removes the administrative burden from our drivers, allowing them to remain focused solely on the road and the students. The data is used exclusively for fast, accurate response in emergency or safety situations.

Bus Driver Testimonial:*“It frees my attention at the time when the students enter and exit the bus. Which means I can have my eyes on the road and pay more attention to the students.”* - Lilli Lundgard, Peace River area Bus Driver.

Concern 2: "The new system appears to be a waste of public funds."

The Reality: The new system is a strategic, cost-effective upgrade that increases efficiency.

The decision to adopt the BusPlanner GPS and Attendance system was primarily driven by the need for a sustainable and more specialized solution for our transportation needs:

- Avoiding Exponential Cost Increases: Our previous GPS provider, Titan, was sold to a US-based company. We were informed that renewing our contract would lead to an exponential increase in cost. By adding the GPS system to our existing BusPlanner account, we secured a less costly system that is designed for school transportation. Our previous provider was designed for the oil and gas and trucking industries and adapted for K-12 Transportation use.
- Administrative Efficiencies: BusPlanner integrates our routing and GPS requirements into one system, automating tasks, freeing up our Transportation team’s time, and increasing overall effectiveness.

Enhanced Parent Communication: The new software includes the Chipmunk parent app. This App equips parents with enhanced tracking and communication about their child’s bus journey. Setting up the app is a secure and simple process. First, download the Chipmunk app (available on Android and iOS). You will then either create an account, or log in using your existing BusPlanner login information. You can then connect to your student(s) account by entering the Quick Code “PRSD.” More information about Chipmunk is available on our website [HERE](#).

Bus Driver Testimonial: *“The tracking is necessary in the event of an emergency that is something that has to be considered I would not want to be the parent that gets the call about a child that’s missing that’s already been dropped off.”* - Stacy Johnson, Bus Driver

Concern 4: "Children will lose their cards."

The Reality: The benefits outweigh the risk, and staff feedback confirms simplified procedures.

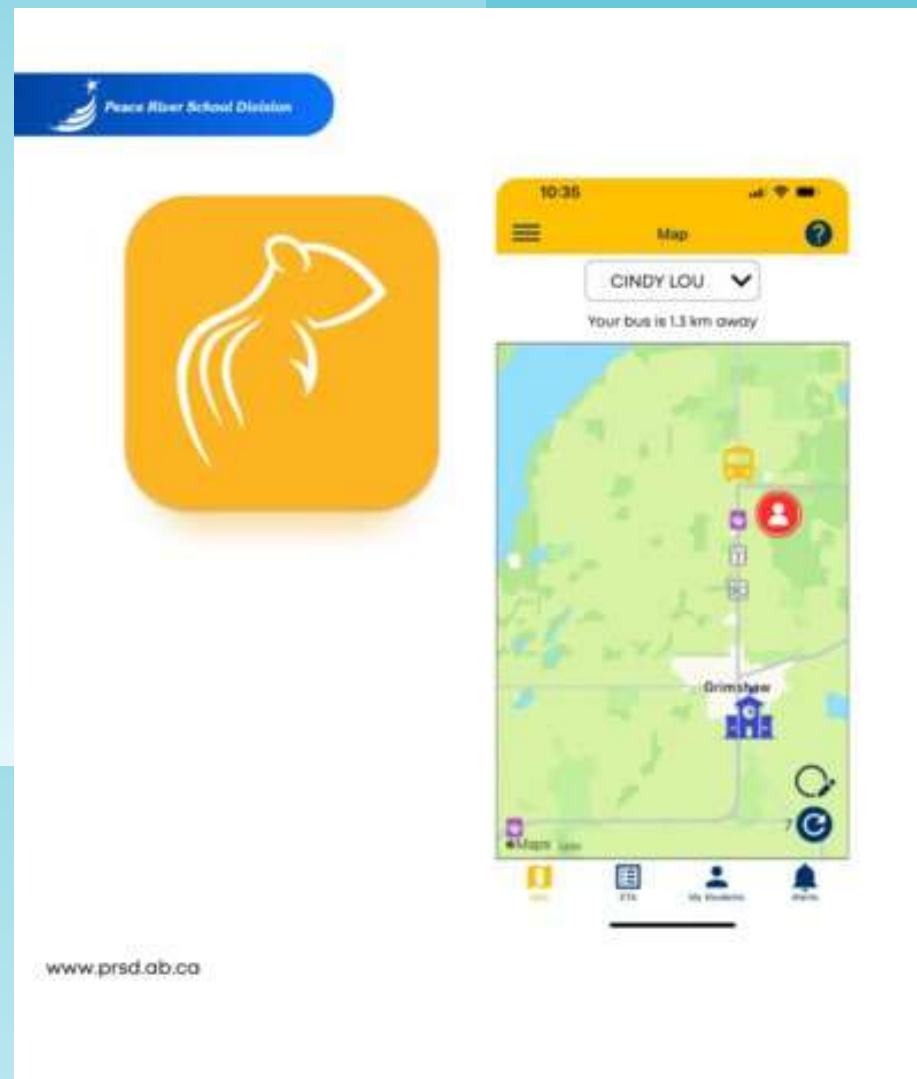

We recognize that there is a risk of students occasionally misplacing a card, but the safety and administrative benefits are substantial. Furthermore, the system is designed to simplify the bus experience for both students and drivers:

Simpler for Drivers: One of our long-time drivers, who was initially apprehensive about new technology, now expresses sincere gratitude for the system, stating it has simplified the pick-up and drop-off process and allows him to remain focused on driving. Another experienced driver loves the program and wishes we had implemented it five years ago. Simplified Drop-Off: The system helps the driver manage the flow of students getting on and off, reducing the chance of an accidental attendance error.

Bus Driver Testimonial:*Most of the responses have been positive especially from the elementary students.”* - Shawna Walmsley, Fairview area Bus Driver.

The Student Bus Attendance Card program is not just a tool for counting students; it is a vital safety mechanism and an investment in administrative excellence focused on enhancing student safety. We believe that by working together, we can ensure the successful implementation of this system, leading to a safer and more efficient experience for all of our students.

Chipmunk: A Bus Tracking App for Parents

Today, we are excited to announce the launch of the Chipmunk School Bus Tracker App for parents.

To provide parents with additional peace of mind regarding their child's safety while riding the school bus, the new bus card system is paired with a dedicated parent app called Chipmunk, which provides real-time information and enhanced communication regarding your child's bus ride to and from school. Please read through the included FAQs regarding Chipmunk and setting up your parent account.

This information is also available on the PRSD website here:
[https://www.prsd.ab.ca/our-](https://www.prsd.ab.ca/our-division/transportation/attendance)

[division/transportation/attendance](https://www.prsd.ab.ca/our-division/transportation/attendance)

FAQs

Do I have to download the Chipmunk app?

No. The use of the Chipmunk app is completely voluntary. You can still find information about all bus cancelations and delays on the PRSD BusPlanner website: [prsd.mybusplanner.ca](https://www.prsd.ab.ca/our-division/transportation/attendance)

What is the purpose of the BusPlanner Chipmunk app?

The primary purpose of the app is to give parents real-time visibility into their child's bus location and estimated arrival times, enhancing convenience and reducing uncertainty.

What key safety and communication features does the app offer?

The app is designed to keep you informed and connected:

- Live Bus Location: You can view the bus's location on a live map while it is on its route.
- Accurate ETAs: The app uses GPS to provide estimated arrival times (ETAs) for all your children in one easy-to-read summary screen.
- Late Bus Alerts: Receive instant, color-coded notifications right to your phone if the bus is running behind schedule.

How does the app work with the student bus card?

The app displays the address and time your child scans on and off the bus. This confirmation provides peace of mind that your child boarded and exited the bus at the correct stop.

How do I set up the BusPlanner Chipmunk app?

Setting up the app is a secure and simple process. First, download the app (available on Android and iOS). You can then connect to your student(s) account by entering the Quick Code "PRSD."

After the app has authenticated the Quick Code, you will be asked to sign in. You will then either create an account, or login using your existing BusPlanner login information.

Please note: Only email addresses registered through the PRSD's Transportation department will be able to access information in the Chipmunk app. If you are having trouble logging in, please make sure you are using the same email address you provided to Transportation on your bus registration form.

Is my child's privacy protected in the app?

Yes, privacy is a priority. The app works securely with our routing database and GPS data to calculate ETAs. The system itself does not store personal data on the bus card. The Chipmunk app only displays the bus location while it is on a route and the secure scan events for safety purposes.

Additionally, the app is not a continuous live feed of the bus route, rather it is set to update every 60 seconds and only displays route information specific to the individual user. This means users cannot access any information about other riders on their student's bus route, and accounts are limited to email addresses registered with the PRSD Transportation department.

Who should I contact if I have concerns?

CORNER

February

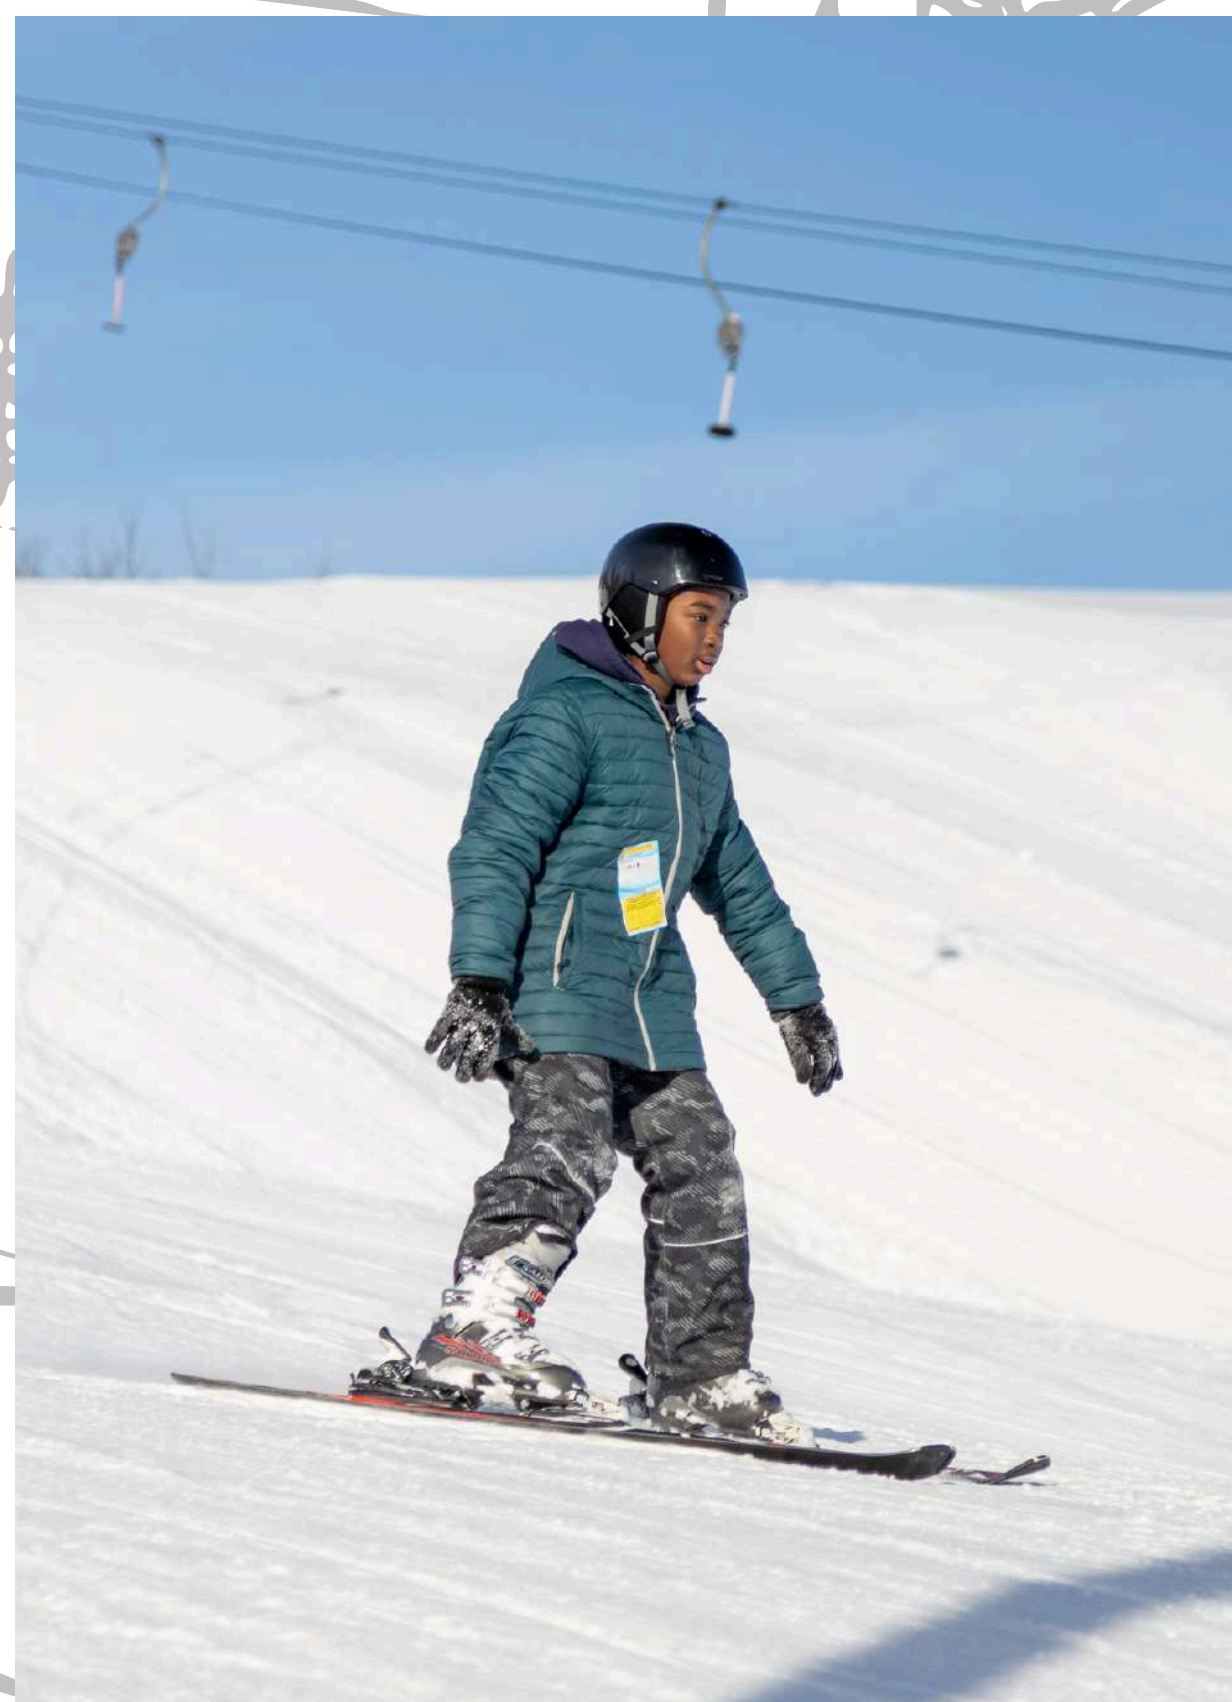

February was such a great month! This month, the grades 5s and 6s went on our annual ski trip to the Fairview Ski Hill for the day! I know for myself, it was a great day of skiing, hanging out with friends, and having fun (along with some cinnamon buns!), and I think I can speak for a few others, if not more!

Along with the Ski Trip, this month we celebrated Pink Shirt Day. Congrats to Hanna who won the Pink Shirt Day contest with "Donut Bully"! Overall, this was a great month, and I hope March is just as great!

A Sombrero for Santa

By Jill & Michael Gallina

JOIN US

DEC 16TH

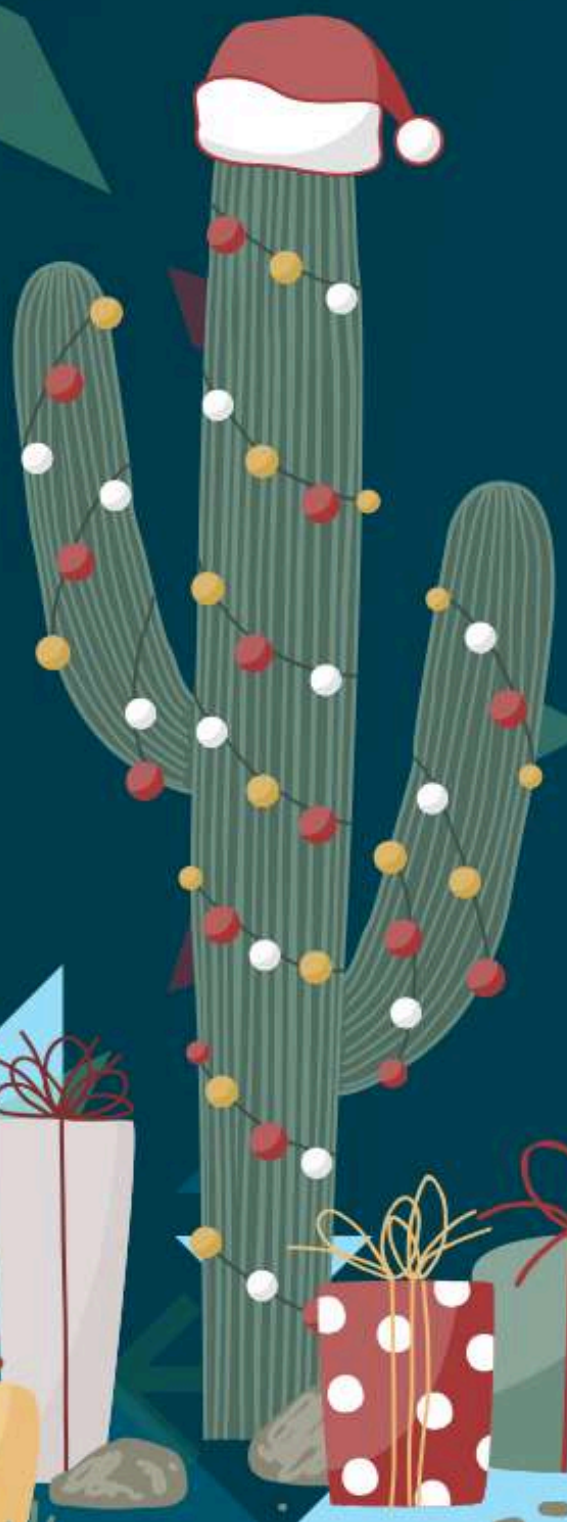

"Up at the North Pole there was Santa, you see, having fun in the Arctic, no worries, please."

"This North Pole adventure began, we confess, with a problem Santa just had to address."

Santa was in a desperate situation, his Spanish was lacking; he needed tutoring. When he decides to hire a teacher, the elves suggest going to a small native town, which is the best way to get a language down. So, Santa Claus, Mrs. Claus, and the elves all fly down to Mexico, where their teacher, Senorita Bonita helps them in their situation.

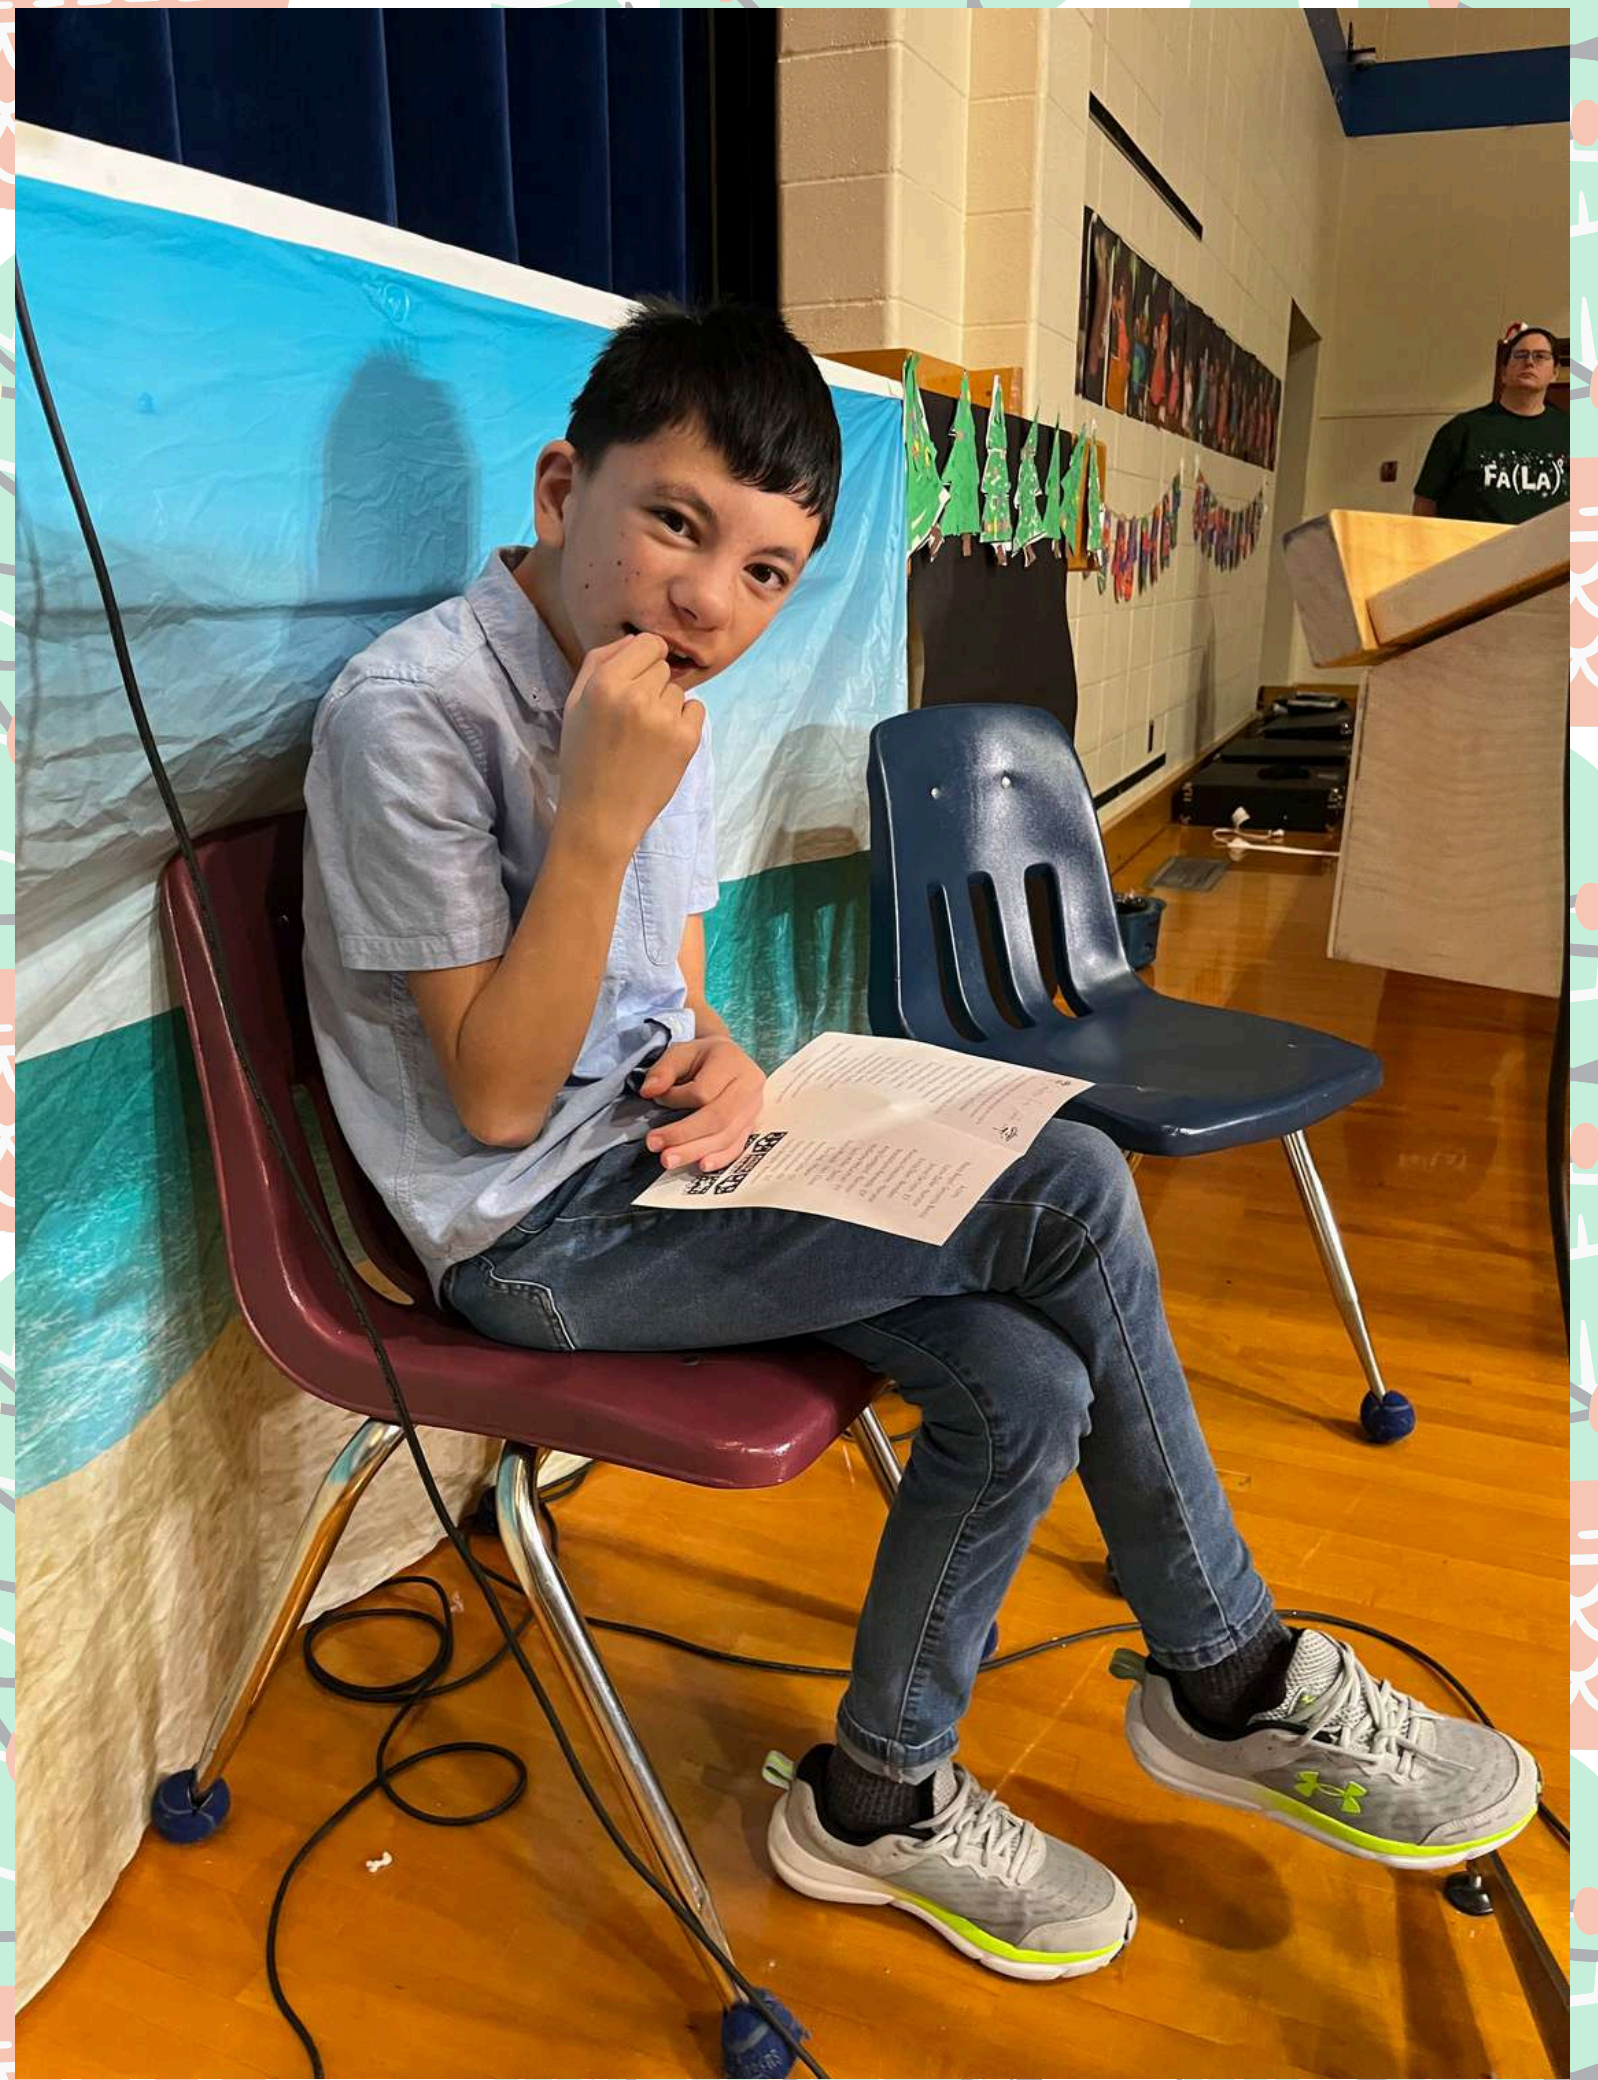

When a blizzard strikes, the North Pole clan is stuck in Mexico. Fortunately, the Mexican villagers all pitch in to help make the toys. All they needed now was a sleigh - wait! Was that just jingle bells? Could it be... Rudolph?
